

ENVIRONMENTAL POLICY

JA Martin Electrical achieves a high standard of environmental sustainability in conducting our business as a competitive organization to the construction, mining & manufacturing industries.

JA Martin Electrical:

- Maintain an Environmental Management System based on ISO 14001 requirements.
- Are committed to:
 - The protection of the environment, including prevention of pollution and other specific commitment(s) relevant to the context of our organisation.
 - Fulfil our compliance obligations with relevant environmental legislation, regulations and other relevant requirements.
 - Continual improvement of our environmental management system based on ISO14001 to enhance environmental performance.
 - Continuously improving the processes and prevention of pollution to minimize the environmental impacts resulting from our operations.
- Encourage environmentally friendly practices and the re-cycling of waste materials.
- Communicate with all stakeholders including local government and community on environmental issues and where appropriate, contributing to the development of policies, legislation and regulations that may effect our operations.
- Provide adequate reference to the nature, scale and environmental impacts of our activities, products or services.
- Raise environmental awareness of our employees and training to make them aware of their environmental responsibilities and accountabilities. Act in accordance with compliance measures introduced and developed by the company.
- Use suitable contractors to dispose of waste generated by our processes.
- Appropriately process any waste generated by our sub-contractors on-site.
- Define the environmental goals and objectives at our Strategic Plan and review them during subsequent meetings.
- Deal with any breaches of this policy using our Disciplinary Procedure.

This policy is reviewed in accordance with the review schedule detailed in the Document Register.
