

QUALITY POLICY

JA Martin Electrical provide specialised services catering for Coal Mines and Washeries, Gravel Quarries, Mineral Processing Industries, Schools, Defence Industries, Water Industries, Engineering Enterprises, Process Control Operations and smaller manufacturing and commercial enterprises.

These services include:

- Design, engineering and AutoCAD drawing services.
- PLC/SCADA services.
- CCTV and security systems.
- Manufacture enclosures, support brackets, protective covers, control rooms, isolators and marshalling boxes.
- Design, supply and manufacture switchboards.
- Installation and commissioning.
- Data and fibre optic installation and termination services.
- 24 hour breakdown and maintenance service.

We are committed to comply with requirements and to continually improve the effectiveness of the management system to ensure sustained profitable growth. To achieve this aim we have established a management system that is based on the requirements of ISO 9001, AS/NZS 4801 and AS/NZS 14001.

The management goals and objectives are defined within the Strategic Plan and reviewed during subsequent Annual Management Review and/or Management meetings. Our strategic direction is supported using the Annual Management Review process.

This policy is included within our Induction Process to ensure it is communicated and understood throughout the organisation and available to interested parties.

The management and employees at JA Martin Electrical are expected and encouraged to strive for excellence in both our product quality and customer service.

Personnel selection, training and constructive discipline are addressed in a manner that maximises this quality program.

This policy is reviewed in accordance with the review schedule detailed in the Document Register to ensure continuing suitability.
